

SMALL CHANGES. BIG IMPACT. SAFER CARE.

Discover a new approach
to patient safety.

Too many people experience unintended physical and psychological harms, including those caused by culturally unsafe care. That's why we're championing a new approach to patient safety, and have developed tools and resources to help you proactively ask questions, have discussions, and co-create solutions.

Let's **explore**, **learn** and **act** to make care safer
and reduce all forms of harm together!
